Education is the hope of development and success for most second- and third-world countries. Mandatory education builds the scope of better growth and development. Education has the potential to revolutionize the course of a nation – with skilled and educated youths. A nation comprises a higher rate to achieve its targeted economic growth and sit among the league known as the developed nation. As India is one of the fastest-growing economies in 2022, poverty is on the decline in the country and is one of the greatest evils of illiteracy. Till the year 2012, India earned the appellation of homing the most significant number of poor in the world. Countries with a high rate of illiteracy are bound with poor hygienic conditions and health. India has walked past the decades where it lost millions of lives to diseases that resulted from the absence of healthcare facilities and poor sanitation. Therefore, it is important to help people understand the value of education and support them with all possible resources.</p>	5	4	C	M
